

Did You Know?

- How dividing into autonomous regions would help the City of New York. NYC would no longer have to send ever increasing amounts of tax money to other regions as it has for about the last 15 years. It would keep its taxes to spend in NYC.

Divide New York Plan

We would partition NYS into three Autonomous Regions the New Amsterdam Region (upstate), Montauk region Long Island, Rockland, and Westchester counties, and the New York Region (NYC). alongside a token state government to comply with the US Constitution.

While the approval of both Congress and State Legislature is needed to divide NY into two states, an amendment to our New York State constitution is all that is needed to divide our state into autonomous regions which is almost the same as being separate states. Since Congress is unlikely to give the Northeast two more US Senate seats a new state would require; the autonomous regions plan, with a token state government, is more likely to succeed.
